About the Illawarra Apprenticeship, Traineeship & Jobs Expo

This Expo supports the local community and provides attendees with expert industry, education, and training advice. It empowers our local youth, encourages growth in various industries and contributes to addressing skill shortages both locally and nationally.

Focusing on apprenticeships, traineeships and jobs, this Expo is primarily (but not exclusively) attended by young people who are looking to take steps into the workforce and learn more about career pathways available to them.

Why should I attend?

Plan effectively for your future

Figuring out a career can be intimidating and challenging - but knowledge is power!

Making informed choices about your next steps can put you in prime position to step into a career you love with confidence

Talk to experts in the fields you're interested in

If you're torn on which path to take, speaking with people already working in the field can make all the difference!

At this expo, you'll be free to ask questions and learn directly from people with lived experience

Find options you might have missed

Even if you're set on one career, you might find something you hadn't considered or even known about before!

We're spoiled for choice when it comes to careers, why not take a look at all your options?

Come along and connect with your future!
